TRAINING PROGRAM - Private Lessons to fit your schedule: (Positive reinforcement and lots of Fun):

PRIVATE Lessons

\$75/6 weeks or \$15 pay by time - Private lesson (you coordinate groups of 3 or more dogs and 30% off each participant will be arranged

Puppy class - The "Pupster" Class (puppy introduction): 2 - 5 months (at the time of class).

6 Week Class: This is your discovery class. What is your dog's personality? This course will begin to identify the needs of your pet and mold him to be one of you family members. This class will allow your puppy to explore his surroundings as you will be instructed on the body language your puppy knows best and the connections he makes. We will reinforce the dog's name and make it happy and fun. We will address behavior like nipping and wetting to name a few. With positive reinforcement we will build trust and consistency in the training. Calming massage techniques will be used in this class as we focus on etiquette and settling.

Level 1 - "Young Pup" Class (beginner): 5 months and older.

6 Week Class: We will identify your dogs non verbal communication and begin to add verbal commands to your dog's vocabulary. We will strengthen the dog's name recognition with a smile. We will learn "leave it", greetings and other etiquette, sit, down along with the stay commands and making recalls (the come) command joyous for your dog. We will also work on walking with loose leash (informal walking position) and eventually heeling (a formal side walking position).

Level 2 - "Teen-pup" Class (intermediate): Graduate of Young Pup Class

6 Week Class: Upon successful completion to beginner 1 (young pup), we will reinforce long sits and downs along with the stay and wait commands. In the process of this class we will make strong reliable recalls (the come) command and making it fun with and without distractions, focusing on attentiveness. We will continue to work with loose leash and heeling, moving towards some off leash walking. We will address any behavior situations that arise, with passive ideas for household leadership management. The dog's social graces will be further developed to become a model canine good citizen. We will be relaxed, happy, and comforting during these exercise.

Level 3 - You're-so-Smart (novice/experienced): Graduate of the Teen-pup Class.

6 Week Class: Working with your dogs attentiveness, off leash handling will become more pleasurable. We will further strengthen the dogs obedience per the AKC guidelines for the Canine Good Citizen's test. In this class the talents of the dog and the skills of the handler will be positively reinforced as we work towards reliable off leash handling with an upbeat fun step. As confidence from both handler and dog, we will add hand signals and connecting them to the verbal commands learned in intermediate.

Group Workshops:

Here are some ideas if you are planning a scouts activity or events, Birthday Party, afternoon tea party, picnic, and others: How about a group workshop for 1 - 1.5 hours with the kids and their dogs? \$150 for groups of 5 or more dog and handlers. Other details can be discussed, please call.
